

AGREEMENT STATE PERIODIC MEETING SUMMARY FOR  
GEORGIA RADIOACTIVE MATERIALS PROGRAM

Current Status: The Program has established an enforcement procedure that addresses the importance of compliance with Department requirements and describes in detail the significance and severity of violations. The procedure also addresses the Program's mission to deal with licensees who do not achieve the necessary attention to detail and compliance with Department requirements. Since approval of the procedure, it has been used on one occasion as part of consent order with a licensee.
